

To the FCC:

As an information professional in an academic library, I appreciate and understand the value of having diverse sources of informations. I read with dismay the plan to lift the ban on cross-ownership of newspapers and television stations. I believe this will lead to a monopolization of information sources by monied interests. Thise with less economic presence will have their voices supressed and eventually eliminated. I do not believe it to be in the best interest of freedom of speech to eliminate the ban.

Thankk you.

Edward T. Moore
